Note:
Flood hazard areas identified on the Flood Insurance Rate Map are identified as a Special Flood Hazard Area (SFHA). SFHA's are defined as the area that will be inundated by the flood event having a 1% chance of being equaled or exceeded in any given year. The 1% annual chance flood is also referred to as the base flood or 100-year flood. SFHA's are labeled here as **ZONE AH** (beige) or **ZONE AE** (pink). Moderate flood hazard areas, labeled here as **ZONE X** (green) are the areas between the limits of the base flood and the 0.2% annual chance (or 500-year) flood. The areas of minimal flood hazard are labeled here as **ZONE X** (clear)
